

SOAP

SOFT SOAP LINE

I Saponi liquidi GENERA sono prodotti a pH neutro per la pelle, concepiti per l'igiene delle mani, ideali per viso e corpo, in varie confezioni pratiche.

Le materie prime utilizzate sono specifiche per il rispetto di una pelle soggetta a frequenti lavaggi. L'effetto lavante è dato da tensioattivi anfoteri e anionici, in sinergia con coadiuvanti specifici per ogni formulazione, come antibatterici o sostanze emollienti, che generano una schiuma ricca e cremosa. Completano la linea gli igienizzanti mani, efficaci, delicati e profumati.

GENERA Soft Soaps are products with a neutral pH, conceived for the hands hygiene, yet ideal for face and body, in different practical packaging.

The used raw materials are specific for the respect of a skin subject to frequent washes.

The washing effect is given by amphoteric and anionic surface-active agents, together with some adjuvant specific for each formulation, such as antibacterial or emollient substances, which create a rich and creamy foam.

The line is completed by the gels for the hands hygiene, effective, delicate and scented.
